RAFFY LUCERO

BSIS Student • Aspiring Web Developer & UI/UX Designer

Email: raffysfalls122@gmail.com | Portfolio: Local / GitHub Showcase

PROFESSIONAL PROFILE

I am Raffy Lucero, a Bachelor of Science in Information Systems (BSIS) student with a passion for technology, web development, and creative problem-solving. I enjoy learning new skills, exploring modern technologies, and creating websites and digital solutions that are useful, accessible, and user-friendly. My goal is to continuously improve my technical and professional skills, gain real-world experience, and become a skilled IT professional who can make a positive impact through technology.

EDUCATION

Bachelor of Science in Information Systems (BSIS)
Coursework includes: Web Systems, Database Management Systems, Systems Analysis & Design, Programming Logic, UI/UX Principles

TECHNICAL SKILLS

Core Web:	HTML5, CSS3, JavaScript (ES6+)
Frameworks & Tools:	Next.js, Git, GitHub, VS Code
Databases:	SQL (Relational Database Design & Queries)
Design & UX:	UI/UX Wireframing, Responsive Design, Accessibility Standards

FEATURED ACADEMIC PROJECTS

Personal Portfolio Website [HTML, CSS, JavaScript]
A responsive, dark-mode personal website created to present student credentials, coursework projects, and technical skills with modern UX aesthetics.

Web-Based Information System (Concept / Prototype) [SQL, Next.js]
An academic information system prototype designed to demonstrate relational database schema design, entity relationships, and structured record management.

UI/UX Website Prototype (Design Concept) [Figma, UI/UX]
A modern user interface concept highlighting visual hierarchy, accessibility standards, user task flows, and mobile-first responsiveness.

CORE COMPETENCIES

- Creative problem-solving & analytical thinking
- Strong passion for learning and adapting to modern software tools
- Commitment to clean, accessible, and user-friendly web experiences
